Locking Collar
CYLINDER RL SERIES STEEL

55 - 565 Ton
Single-Acting, Load-Return

Positive mechanical lock to support load.

- Support lifted load for extended periods of time with hydraulic pressure released.
- Visible indicator band alerts when stroke limit is reached; overflow port ("weep hole") stroke limiter prevents piston from being overextended.
- All cylinders feature coated pistons to resist corrosion and abrasion.

ASME B30.1
10,000 PSI

Locking collar feature permits non-hydralic support of load.

- NOTE: Supported loads not to exceed the rated capacity of the cylinders.

Not intended to support additional dynamic loads, such as those applied by moving vehicles.
Single-Acting Locking Collar Cylinders

Positive mechanical lock to support load.
