PORTABLE HIGH TONNAGE

55, 100 & 150 Ton

- Modular design - pump and cart separate from cylinder and base.
- Three tonnage capacity options - 55-ton, 100-ton and 150-ton.
- Three collapsed height options - 660, 838, and 1,143 mm.
- Two standard power options - air (PMA55) and electric (PE55).
- Two control options - remote motor control and remote valve/motor control.
- Accessory options - 168 mm extension, load-holding rings.
- Select the collapsed height to fit your most frequent application - add jacking modules to suit your needs.

- Remote operation for maximum operator safety and control - choose “motor only” or “motor and valve” control in the hand.
- Easy-to-maneuver - large tires and small footprint make it easy to scoot into the tightest quarters, then locate the exact lifting position.
- Adjustable, heavy-duty handle - makes this jack easy to move, position under vehicles.
- Convert jack module into stable mechanical cribbing device.
- Increase retracted height up to 521 mm.

- Low-temperature oil (optional) - provides rated mechanical load-holding capability.
- Adjustable load control system - provides smooth, reliable operation in the coldest climate conditions.
- Modular design - allows you to change lifting modules to suit your tonnage or height requirements. Use the pump module as a portable power station for your other double-acting cylinders (700 bar).
- Modular design allows for quick interchange of pump with other modules.

- Low-temperature oil (optional) - provides rated mechanical load-holding capability.
- Adjustable, heavy-duty handle - makes this jack easy to move, position under vehicles.
- Can also be used to transport jack on site with a forklift.
- Remote operation for maximum operator safety and control - choose “motor only” or “motor and valve” control in the hand.
- Adjustable load control system - provides smooth, reliable operation in the coldest climate conditions.

- Increases jack’s reach.
- Load-holding rings (optional) - provide full mechanical cribbing capability.
- Cylinder extension (optional) - adds more versatility by extending your jack’s reach.
- Shielded and stroked hydraulic lines - for safer, longer, trouble-free service.
- Increases jack’s reach.

- Cylinder extension (optional) - adds more versatility by extending your jack’s reach.
- Adjustable, heavy-duty handle - makes this jack easy to move, position under vehicles.
- Increases jack’s reach.
- Provides full mechanical cribbing capability.

- Cylinder extension (optional) - adds more versatility by extending your jack’s reach.
- Adjustable, heavy-duty handle - makes this jack easy to move, position under vehicles.
- Increases jack’s reach.
- Provides full mechanical cribbing capability.

- Cylinder extension (optional) - adds more versatility by extending your jack’s reach.
- Adjustable, heavy-duty handle - makes this jack easy to move, position under vehicles.
- Increases jack’s reach.
- Provides full mechanical cribbing capability.

- Cylinder extension (optional) - adds more versatility by extending your jack’s reach.
- Adjustable, heavy-duty handle - makes this jack easy to move, position under vehicles.
- Increases jack’s reach.
- Provides full mechanical cribbing capability.

- Cylinder extension (optional) - adds more versatility by extending your jack’s reach.
- Adjustable, heavy-duty handle - makes this jack easy to move, position under vehicles.
- Increases jack’s reach.
- Provides full mechanical cribbing capability.

- Cylinder extension (optional) - adds more versatility by extending your jack’s reach.
- Adjustable, heavy-duty handle - makes this jack easy to move, position under vehicles.
- Increases jack’s reach.
- Provides full mechanical cribbing capability.

- Cylinder extension (optional) - adds more versatility by extending your jack’s reach.
- Adjustable, heavy-duty handle - makes this jack easy to move, position under vehicles.
- Increases jack’s reach.
- Provides full mechanical cribbing capability.
